### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Inoue (6,613,491), Yamada (6,453,146), and Kushi (6,187,497) are cited as of interest by the Examiner to show toners with particles of similar size used to improve cleaning performance. The prior art teaches inorganic particles rather than resin particles having a criticality of characteristics that include resin size, gel ratio, and polarity of the present invention and there is nothing of record that makes obvious the use of the inventive resin particles in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
